With Cold war ages Afghanistan is stage for all experiment. After there was an alliance among with USA. That is as same as all it governs with Japan.

Growth with today that Taliban spend themselves with govern of nation. There is their justice against Illuminati. But in any ways, they may not cause against.

For all its attitude facing with woman these are against all trend of the world. There is a world public opinion for all realities. There is all curiosity that USA are not asking own involvement. That we could wonder waiting World War 3.

Their jihad is circulated under Humanity. This is all decision against any justice.

We could remain that Japan was only colored that asking participation with WW2. They make themselves as slaves after.

But all realities are only a permission to be participated with the world.

Any justice is facing all its power but for them to last, we may find as same as all for them to be.

That is the proof that authority is forever ideals. That is also the proof that Satan is more than all clever.

That we are trying to the futures seeking an answer.
