

Any details of the unification of Asia

Kuroda International

Takeshi Kuroda

Unification must be given under the whole agreement by any nation. Reconstruction of society must be under the measure of Society 5.0.

Unification with the army must use the same standard of weapons and communication system as controlled by a unified command system.

Education must be standardized, and academic development must be under full cooperation. We are asking for new infrastructure with its bases as a new transportation system must be the core of regions.

All of these are under new political presence as that politics has the bigger decisions in all realities.

Unified currency is moving to digital currency, and we make our free trade group against any realities of the world.

With a new space age, we ask for its cooperation and realize any technology of its use.

AIIB could be a base of new development, and we are asking for any equality of its infrastructure and society to the world.

Name as European Union as Asian Union with AU.

Based on all these agreements, we declare equality to any world reality.

Bases upon we may ask for its foreign affair to a new world.

All industries are based on capital and technology, and the system must be the highest under any to be compared.

With all these realities, we are trying to cooperate with any region of the world with its
