Create the future

Considering with birthrate

KURODA International Foundation

Takeshi Kuroda

Society and life cycle should ask own soundness to have right birthrate. This is with a decision of politics and under with human being to have right own growth and life, society.

All these must be planned to construct own nation to have soundness to all reality as detailed. As any considering birthrate show soundness of society and life as any reality from France may be right with social system and own environment of lives.

These are right measure to see the truth. This decision may ask own determines to politics.

All these proofs are shown itself with reality for any requirement of society and lives that must be agreed by politics.

All these plans must be under politics to construct own nation.

To be compared under France and 3rd development nation there is a full difference to construct life and social system, As all common sense France is soundness to have themselves of.

All these goals are right decision to ask own nation to rebuild society and use of new technology.
