

Change and sift

KURODA International

Takeshi Kuroda

The Russian invasion and all confusion worldwide have a tail of nuclear weapons. It occurs all change and sifts of the world.

Western camps can not be in touch with their menacing troops. This is a tragedy for Ukraine.

The world can not ask for any help for Ukraine. There is all change in world rules.

We can see all change in reality as 3<sup>rd</sup> developing nations are confusing.

United Nations can not ask for his decision.

These are the reality right in front of the coming New world order.

It causes all change and sifts. We are facing all differences in any realities in the future.

Covid-19 may not ask for his solution, and the stock market has been showing its meltdown.

But it is still not started, and there is all plan and decision in the world.

There must be an X day we have to face, but politics may not away any moment of realities.

We may wonder if there must be any concern from the universe as any contact with the Moon base of the United Nations.

But at any moment, we must handle the nation and give them the right decision and action.

We can not dream but face reality.
