

Diplomacy to ask for all settlement of the realities

KURODA International

Takeshi Kuroda

Alliance of the whole Asia stands its diplomacy with equal position to all-region. Especially with Europe, we are trying to ask for Eurasia to cooperate in developing regions.

Bases of world power balance are needed with fundamental cooperation to ask for its participation.

We are trying to make equal cooperation to any divided areas in America and Canada, Africa, Europe, Oceania, Russia, and South America by all regions.

We take Europe as the most important alliance, only a possibility we may ask under all reality.

This must be an alliance of the new world under its agreement.

As we may consider, Eurasia has a core under its cooperation in the future.

Any alliance is all agreement the peace, and with Europe, we may propose a new world and equal future for any region.

China's Belt and Road has agreed to a recent replacement of Eurasia and will carry it out.

Any history gives us proof that only the winner makes the world.
