

Failure of the world

Kuroda International Consulting

Takeshi Kuroda

The world is not held up himself, but failure. The stock market must ask meltdown. World war 3<sup>rd</sup> is all prepared.

We need our decision to stand and seek the future. We need to be prepared for the future. This is a fable of ants and grasshoppers.

The dark night is right in front of us all. Any representative of any nation has an agreement with the coming future. That means we do not have a choice.

To be wise, what can we see?

The winter is coming, but we may not find dawn.

Under any reality, who may give you a right and hope?

We could not have a hero in any history. That is all desire we seek, Captain America.

Let myself ask for dreams under all realities.

Hope is the only way we may follow.
