NATO to confrontation with China and Russia

KURODA International Foundation

These predict the final war in the world. The New World Order behind it clearly realizes world ownership. Ghosts of the past are required to participate in the final war in order to protect their authority.

NATO's military and capital industrial power, along with space technology, seek these wars. On the other hand, the conflict between the world in subordination to NATO and the military industrial power in China and Russia calls for a fight against NATO behind the organization in the Illuminati. World War III in the military-industrial complex must be understood as a clear plan.

These are the Western justice in public opinion guidance and the Illuminati forces behind it to realize the struggle between China and Russia as its final war. The war on advanced military weapons divides the world completely and seeks its conclusion.

The establishment of world justice in the United Nations brings justice in its puppetry to the world.
