Create the future

Forecast to the future of world

Kuroda International foundation  
Takeshi Kuroda

All reality as bases with New world order are only a reality we can find with the world. As full confusion may cause with all reality and any justice and consequences are asking their futures.

Only as I find with the world is seeking own profit out of any possibility to discuss with. These are imagined seeing more of troubles with the futures.

Hero must be waited with the peoples and world, but he could save the world or not that I will never be known.

The future is dreamed as with all children, but the world never be accepted with all dreams. That reality is as same as all histories.

With China matters decision must be with army forces as all king with history seek to own the world.

Technology is always with trend that all peoples are following.
