Create the future

Free economic system and ownership of trend and futures

KURODA International Foundation

Takeshi Kuroda

Top trend is a participation of space technology. And all economy asks to forwarding top trend. This is economic system and creation of the futures.

Ownership of trend is dreams. They are successful person to be envied from whole world.

To consider all these realities there is all explanation of all reality.

All trend is from Europe and America. Bases are all academic bases.

But for the truth any bases are with economy and economy is built upon law of survival.

Tring to be wise to be with philosophy. There is a challenge to face the world.

A new world with new technologies serves to appear new elites. With all educated has all trend of the world.

These free society has all trend and ownership of the world.

All these reality proof equalities are only illusion but reality itself.

All these ends of civilization are covered with all western roots.

But philosophy could ask a full doubt about the world. All these competition principles are creating all socially vulnerable. Two divine of the world asks the futures.

All Hollywood heroes never be found with reality.
