

Funeral of Queen Elizabeth II

Kuroda International Consulting Takeshi Kuroda

This is a reality and proper knowledge for any reality and the future. To be wise means to know all truth.

The world is under power politics that we need to know. She had proof of the king of the world.

There is more than any learning. We might face all these realities.

To face reality is all these means.

On the other hand, we may ask for a different reality from those.

To ask for difference means we have to build a new reality.

I had sent all visions for the difference. These are the effort of a new world.

The world must be separated by two. It must be goodness and evil.

That is all remark that I insist 3rd pole.

You may ask to stand against reality, then what you could gain. Wise men always stay ordinary but out of the law.

I want you to be sure that the military is the last decision. That is why we must be prepared for all those truths. Money may not ask for any decisions.
