

Guarantee basic housing and new society with basic income

KURODA International Foundation

Takeshi Kuroda

With all new technology and system as Smart Home that politics decide to provide with government guarantee to all peoples. All these are provided under low cost with mass production. Above with basic income serve new life style and use of new technology as new energy and society 5.0.

These are required to settle new financial environment. New tax system and social change is all needed.

Reconstruction of society is moving forward to the futures. IOT is all use to new society.

All these political decisions are bases with domestic demand and growth of own industry.

Politics serve all system of Industry 4.0 to all companies to reproduce own industry.

These are with political change with new environment. New society bases upon new educational environment that is all new nation with all new realities.
