Create the future

Israeli attack in Syria and transition to World War III

KURODA International Foundation

Takeshi Kuroda

These are the precursors of World War, which begins in the Middle East. The clear intentions and plans behind them give reality as planned.

These have a appearance of justice and propaganda in the United Nations, world unity. In reality these are clearly understandable. It is the construction of reality as a hypothetical enemy to China and Russia, and the establishment of new justice in Western countries.

Participation in reality is the only way to deal with these.

Dealing with these is the only way for revolutionary uprising in information disclosure.

The world revolution calls for all criminal arrests in intelligence and military participation.

The revolutionary uprising in all nations will bring about a revolutionary war in the mass uprising against the world behind intelligence agencies.
