Under humanity to be constructed own nation with citizen card. To ask duty of nation to all citizen and asking new reality with lives and society.

These are all permission for own citizen to be participated with new futures. And own participation to the world with duty of nation and asking own independence.

This is a right for own peoples to be served any opportunity from nation and equally face the world.a

Above all with any technology and progress may ask new environment and seek all porpoise to the futures.

New education system is creating all futures of the nation. All these are permitted with own citizen and all hospitality to any guest from the world.

To be compared with reality of America that is all similarity we can find. But all social problem may not be followed but asking own porpoise.

AS foreign affair may equally cooperate with the world.

These are with new possibility to be found with new ages with any growth of new reality.

Office to access the world.
