To conquer survival and all academic progress for any illness that could seek anew with a world. All technology must ask own use for a new world. Waiting for all participation to universe may give a new reality.

Philosophy is with aa idea that create a reality. What may be a purpose that all above reality is waited with us all?

All decision of politics that guarantee life and futures. We have all decision and choice we can work for. For this necessity is philosophy. Due to all bases are with these.

To see all poor what is our decision? On the other hand, we can see wealth with a world.

Philosophy is all these considering and has a solution.

That is all proof that politician must be a philosopher. Due to he has an answer.

That what you have to know, great politician is a philosopher.

With all calculation with fairness and equality what we can see with the futures?

Do we ask own duty for all dream of children? It is not hard to solve but on the other hand we could ask duty for the world.

These sharing is new trend for to seek the futures. As basic income could guarantee for all lives.

New system and society are possible under Society 5.0 and Industry 4.0 even with IOT.

We are facing right in front of the futures, we are forced to make own decision.
