

Political statement

Kuroda International Foundation

Takeshi Kuroda

Only any dreams are possibly realized with all promises what is all your decisions?

Action creates any realities, and the plan is all promises. That is all secret we can ask.

Politics may ask any of its dream. Dream is all plans to the futures.

Do all peoples have any permissions to ask own dreams, and the world have enough to serve for all their dreams? That must be all duties for any politics.

Freedom of the speech is all conditions we could ask a right world. Out of to be forced but making own steps.

Out of limitations we could only dream for.

Then you are facing any decision. Due to decision is an all reality of the futures.

That means politics have all possibility to ask the futures.
