These are the result of democracy and capitalism. But as we see that ideal and dreams may be ignored by all poor. These worlds occupy by wealth that is the world with Popularism and Meritocracy.

Career is always dream and ideal, but we must ask all purpose of lives. The highly education is ticket to be participated with reality.

You may wonder how is the paradise.

Politics must have all determine of mind to create own nation but standing against Popularism that you need own philosophy.

Meritocracy may not be all value but own personality. But all its skill and ability as educated must realize any visions.

These are all question to the reality that means politics mu be asked self as construction of own understanding and knowledge.

These are valued under any reality of the world and must ask necessity of the world. That must be all decision of politics.

These are all considering with academic progress nowadays that could ask all potentials and possibility to the futures.
