

KURODA International

Create the future

To the reality that Chinese intelligence number 2 has gone into exile

KURODA International Foundation

Takeshi Kuroda

These are all reality among within Free society and Compulsory society. One with NATO and the other with China and Russia. For all common sense that new world order is right with plan to go.

This separation of world is waiting as World War 3. There is no possibility to ask any victory with China and Russia. All technological progress with NATO is all reality of tails that the world could not ask any choice.

With all surfaces that we can find justice, but reality may ask the future itself.

Western side of group is more than all ready for their new world.

How could we ask choice to face an all reality? But reality is more than any novels to see the world.
