

Victory and defeat

Fostering cutting-edge industries

Systematic development of society

KURODA International foundation

Takeshi Kuroda

Victory takes the world. Defeat lost the world. These are the laws we can find within any history.

To reach same presence to ages that requires fostering top industry with any field. These are bases with political decision and plans. Economic supremacy is a transformed reality of past wars, and self-participation requires the development of industry at its cutting edge. Under all these realities we must put ourselves with victory. There is a law and rules we are equally participate to the world.

Any societies are planned to build himself with development of the best living environment. So that these are all priority to be needed to be planned with politics. Society is all bases of nations as lives. As all new growth of technology as society 5.0 are bases to reconstruct society. An orderly city plan is absolutely necessary.

That what must be known is all new trend especially from America and lives. These are new reality we only permit ourselves to the futures.

Must ask equal presence to the world facing with all new world. As all these new ages that we are participating to universe as age of Aquarius.

These new political plan and development is new creation of the futures. Any new possibilities are given with new technology and academic progress.

These are all agreement of unification of whole Asia. With an educational environment permit equal participation with all peoples.
