Create the future

The world of reality and the future of ideals

KURODA International Foundation

Takeshi Kuroda

The United Nations World War III and the United Nations are clear plans for the New World Order in the Illuminati.

Every nation in the world is a puppet, a creation of the future with a clear possession of the world.

These are the liberal camps in the unveiling of new weapons in the military-industrial complex in a full-scale war between the People's Republic of China and Russia, the absolute enemy.

This is World War III in the Allied forces of NATO, against China and Russia.

To confront these rises, we want to establish new justice, present it to the world, disclose information, and raise a revolutionary war.

In this, I want to confront the world in the whole army and decide the futures.
