Create the future

World War III

KURODA International Foundation

Takeshi Kuroda

The confrontation to World War III seeks a decisive battle in space weapons behind all ICBMs, and controls the world in cooperation with space. Access to the United Nations Space Station on the Moon and diplomatic proposals will be made in cooperation with space in the nation.

Disclosure of all information at the General Assembly of the United Nations declares a revolutionary uprising in the disclosure of information to the media in the world and confronts reality.
