

The weakness of the Russian army

KURODA International

Takeshi Kuroda

Russia must have done its occupation within a month of Ukraine. To be compared with America that they have all its strategies and skills. That means the Russian army is an army of the old days.

These are the evolutionary shocks to the world power game. America and NATO's progressed the others can not reach weapons and strategy.

These are asking for new realities in the world. It is the confrontation of other nations to absolute national power and truth.

These are truth and reality only to be accepted under any decisions. The USA may seek his presence above. That comes out of lies, but in fact, we have. He doesn't come as a Hollywood hero.

On the other hand, asking for all calculations by CIA standard is a mass incitement competition; there must be one like a Hollywood hero.

As mentioned above, all these are the tail we may ask for any realities. Under the Russian invasion, there must be a change of reality, and he has nuclear weapons and only stands against all realities.

As we are following the plan of the new world order, we may expect the coming future. We have only permission to step into reality but any dreams or illusions.

There is a superpowers as it has as NATO and AUKUS. There is the alliance of Anglo-Saxons , and Israel has its tails. That tells us that those who only stand in reality are permitted to participate in the future. That means we may not follow any propaganda from the CIA.
