

A new group in all reality that seeks a new future

Office
of
Kuroda International Consulting
Takeshi Kuroda

There are conflicts between the Liberal camp against China and Russia alliance. We must raise up new vision to seek to build a new group.

We may propose a new vision and idea as new philosophy that is trying to seek new possibilities. The liberal camp has its tail with Illuminati and Russia, and China gives inhumanity. We must raise justice.

Under any contract by bilateral agreement, we are trying to seek a new world. We are trying to bet a chance in reality.

They made a plan called the new world order. On the other hand, we may raise a new world.

If you all find only disappointment, we give full of hope. You may guess how the world reacts.

We do not have a crime when trying to disclose information. As all above, we are sending to the world justice.

We seek a final war against the world. This is from our office that is Kuroda International Consulting.

We are asking to dream of the future and the world. Since the world is filled up with all pain and suffering, even dark nights in the future.

We have sent all ideas with a world and future. The world has a choice that comes with a future.
