

A world of pretense and deceit

October 27th,2023

Kuroda International Consulting

Takeshi Kuroda

The world may not fail by the Illuminati, but it could fail with pretense and deceit.

New need a righteous world to seek for the future. That may be the only condition we can work for.

The world given by the Tavistock Institute of Human Relations and CIA successfully asks for a total celebration of all peoples. That means they must celebrate the world but not with all people since all people must face the future.

All this world is a world with pretense and deceit.

We find a truth that the new world order is an effect of evils. We see all the proof in the world.

The world under mind control is a reality we have as all aliens make their control, as in The Matrix. These are both the same.

We only put ourselves in the overture. That means we have a future to go.

For all truth, we do not have a choice in the future. But we could forecast a new world with hatred that comes with new laws.

We have to go away from all danger. But we need to have a future that forces us to make a choice.

There, we see all the timelines of the new world order. As we insist, any ideas are to prepare for the coming future that serves a new world.

The day we face the truth, it may be too late unless we are prepared for the future.
