Takeshi Kuroda

These are the timelines we have for the future. Then what can we do for the world?

If we try to find any way to survive from any reality, what should we see?

To be wise, all my descriptions are a light to the future. Under any calculation by reality, to be realistic, we see only a wise decision.

Asian Union is any base we can work for the world. You may be in touch with all my descriptions.

These are the respect to all our kings from our office as myself.

1) Complete and irreversible collapse of Middle East peace.

2a) The Vatican and Jerusalem will be destroyed by religious terrorists.

2b) Worldwide collapse of all religions.

All religions will be banned.

Religion cannot be practiced or preached outside the home.

3) Following the declaration of peace and security around the world,

the United Nations will establish a Provisional One World Government.

4) Citizens of the new One World State will emerge.

The governments of Great Britain, China, and the United States will suddenly and systematically collapse.

The rest of the world will descend into anarchy. Only those with good will and truth will survive.

5) The new government structure will be governed by an elite of 144,000 (one hundred and forty-four thousand) bureaucrats and 6 million plus officials.

6) As the New World is created,

mass cleanup operations will be launched.

The economic system will be restored.

Infrastructure will be rebuilt.

Diseases and illnesses will disappear.

Aging will be reversed and even cease.

A new, restored human family will gradually bring Earth into a paradise state.
