

All responsibility for all children

July 31st, 2024

Kuroda International Consulting

Takeshi Kuroda

How the children in the Gaza Strip and Ukraine find their future. On the other hand, children in the USA ask for their comfort and seek their future.

Who takes all responsibility for the above circumstances? That is the only way all children may find their future.

If in Gaza and Ukraine, their children have a dream, this must be the first time I can dream of the world.

It is a global responsibility to ensure that every child has the opportunity to pursue their dreams and shape their future. We, as a global community, must come together to fulfill this duty.

Suppose all children must be given equal opportunity for their education and future. The world may ask for a new agreement.

The upcoming UN General Assembly in September presents a significant opportunity for us to make a positive change for the future of all children.

I am trying to send all letters to any representative of the world. Are they willing to take all responsibility for the world or be away from it?

If we are gifted heroes, this must be the first time all children in the Gaza Strip and Ukraine may dream of themselves.

We see that he may have come from the political field to recreate the world for all new children.

May I ask you a question? May you have a dream?
