

Any alliance with the universe

August 19<sup>th</sup>, 2024

KURODA International Consulting

Takeshi Kuroda

Under its declaration to the universe, we are presented with a unique opportunity. This new contact holds the potential to shape our future in ways we have not yet dared to imagine, bringing with it a wave of optimism and hope.

Our equal partnership and your full cooperation are not just important, they are integral to the success of this venture. We can navigate these new realities together while maintaining our independence and equal relationships.

They must have all progressed in technology and academics. That must be given under all its alliances.

These are the realities we see in the Holly Wood movie. They may not be illusions, but they are the realities we will see in the future.

The world is under the control of the Illuminati and Matrix, but we may seek a new world under any vision of ours.

These are all the basis of our participation in the universe, and we may see that they make all the decisions regarding our reality on earth.

We face any opportunity to cooperate with its people to seek the same future.

We need to prepare our opinions and visions of ourselves and try to argue with them about all futures.

Any placement of the earth may join the group of existence of placement, which is The Solar System and Its Galaxies. And they may have all their decision for any reality of earth.

We have two enemy Matrix and Illuminati.
