

Asking about the future at stake, having reality in an unpredictable future

Office
of
Kuroda International Consulting
Takeshi Kuroda

As we all know, the world is under control, so we ask for the world at stake. This must be a choice of all of ours.

Standing against the world means standing against NATO. And we have the only choice, that is victory.

The military is only a decision but capital. This is our stake. Justice is from our office that you must follow.

The way to realize a word comes with army forces, even if we are standing against any reality by all truth.

And we must bet on victory. So we need Mr. Zhuge Liang Komei.

Brave never asks himself to step backward but forward. That is the way we may reach the future.
