

Block economy

KURODA International

Takeshi Kuroda

These are constructed under national security. The US and Europe are asking for their blocks. That how may follow them, we have to know. But we build up own partnership.

Whole Asia is facing equally to the US and Europe. That decision declares we may not follow them but be independent.

That means we have to build our group and realities. And as we are facing new world order, that is all reality we may be facing.

We are creating more than any future by its technology as we are building a new academic center based on ourselves.

Education may not be a tool of these but rightly asking growth and porpoise of self. This soundness is all necessity of groups.

As a new society with society 5.0 is all agreement of its development, and we realize next society by own.

These are our determine we are standing with its independence and equality.

This position is all bases on coming from all reality as it is called futures.
