We may see the collapse of the world. That is all politics know, but we see them in a world—any steps into the world that force us to make a decision.

We must understand that there must be world war 3rd, which means that NATO, AUKUS, and Israel may cooperate and seek their world.

Additionally, we have to know there must be action from the universe. There are all we have to be prepared for the future.

There is China, Russia, and Iran matter. But they are under the control of the Illuminati.

There is a new world order that covers the whole world. The only decision we are permitted to make is to build equal power.

We may send a new vision to the world as we are trying to make a cooperation with the universe.

The idea must separate the world. We may hold our philosophy to the world. If the world is failed, we may try to cover the world.

On the other hand, we have to build up our realities. All technology and progress in academics have a use for a new future.

A foreign affair is a tool to ask for survival. We are trying to make a new reality in the world.

Capital has a world. That means we need our money system and a base of realities for all industries.

We may ask to make a whole plan through bureaucracy, and we have to know this is the only way we may request to survive.
