KURODA International

Takeshi Kuroda

The world with new world order and have all total control. Mr. Li ask himself with king of empire.

This is an only reality we can find. In 19<sup>th</sup> Century Japan collapse himself against whole world.

Ancient glory may not ask the futures. Western Camp has a future to be a slave of theirs.

This is not an Irony but reality we have to work for.

Due to we only may ask under the king.

The history of the world must end by now. Let me ask a question who own the world?

This is a proof we only may ask reality. That means we may not dream.

With all curiosity this is not novels but reality we spend ourselves within.

And this is an only permission we may ask the futures.

And only a permission we have is to make a victory.
