

Collective Security Treaty

KURODA International Consulting

Takeshi Kuroda

Russia does have nuclear and space weapons. That forced NATO to stop his steps. We are all afraid of full-scale wars. Today all technology goes too far away from ancient.

President Mr. Putin is a villain in all media. But what is a decision if the world finds all the details of reality?

This is a new era that all new technology is different from the past. All armies hold a new weapon.

We first find all superpowers in the world. That comes with the USA and Europe. We have a new cold war is all reality.

No one may not ask for war under all fear of the technological weapon. We have all new space ages under the use of army forces.

We may not forecast the future. For the truth, no one can find the future. All these are more than uncertain, so the world is unstable.

We have a new world order in which all national representatives have the same agreement, even Mr. Zelensky.

All media may be a use of theirs, meaning all mind control from the CIA is only a reality we know.

If we hold all truth, a hero could save us all.

This is one of the seven wonders of the world. The truth behind it is never revealed to the public. All politics make lies honest.

But we have great learning. All beings have renounced guilt.
