

Construction of Academic center within region

KURODA International

Takeshi Kuroda

All new development of academics with the top trend of ages we are gathering talent and build infrastructure at core of bases in region of Asia. That is out of any to be compared we may find in the world.

With all agreement of region that one area must be chosen and build all academic development and investigation.

These are all cooperated with regain of any participation and politics and university ask own participation within.

Even own volunteer of industry and asking new creation of any realities.

These are right choice for us to stand equally Western camps. As we are willing to be participated with universe bases upon all development and investigations.

These are cooperated with all industry in region and equally stand own positions with a world.

As army forces must be equally facing to the world that all creation of new reality may permit own visions.
