

Construction of national reality

KURODA International

Takeshi Kuroda

A new political environment is all bases to build own nation anew. Technology and buildings are with comfort and functionality that is with all creativity. These are constructed under society 5.0 standard.

Reconstruct all organizations are with private field as all cooperated. With new society that are with all academics for any bases of self.

Even with regional government need same environment due to politics create and lead a society.

Mental health is with moral that create right with society. These are right base we could ask renew of all field with society 5.0.

Above condition permit all rebuilding of reality with new technology and systems.

Politics has all decision of creation of anew. That means plan has own promise to realize anything.

Political party could ask agreement and decision to be anew with new society. These are with all trend of business field.

New national security of agreement require information agency and national strategy as protect own nation under industry and army, foreign affairs.
