

Economic crisis

KURODA International

Takeshi Kuroda

We could forecast the economic crisis related to Ukraine and the Middle East as we see that new monetary system and default of nations.

The world economy could be imagined as two divined realities. And the nation of self could be separated.

Today we see top industries of the world that continuously ask about the future. We are standing right in front of the future.

To be wise that we see the future. We can find White races with their hierarchy. But we must know that is only permission.

Economic crisis seeks a new world system that is called new world order.

The wealth asks themselves about the future. More than many must lose themselves to request help with new world systems.

Under all these circumstances, Illuminati takes everything. Then we could ask about their future.

Who failed that who is out of itself but only with.

At this point of moment, there is no national government.

This must be their plan but too late to see the truth.
