

Equal capitals to face equally to the world

KURODA International

Takeshi Kuroda

Facing above with GAFAM, we are participating in business and globalization. Capital control business and realities.

Equality means and requires the same condition and bases to face each other.

That is proof we need to build equality to participate in the world and future.

Reality is more than the severe that is an answer. We have to be a realist but dreamers.

Capitalism allows proper reality. That is a law of business.

The creation of wealth gives proper of the realities.

That means equal capital may stand equally to all realities.

That makes it possible that build up with own empires.

Those are any reality as we are facing the future.
