Final battle and decision

Kuroda International  
Takeshi Kuroda

Under reconstruction of United Nations permanent member of the council we ask final games. Russia may not be permitted self of participation. And rebuilding of United Nations permanent members of the commission requires himself represented by several nations. That means we ask for the word renew and gathering to express the world as United Nations permanent member of the council.

That means we are trying to represent the region and raise its justice to the world. Then how you may imagine changes and realities.

And we may ask for the world's decision under the United Nations permanent member of the council.

We are not trying to judge but reconstruct the world.

We are asking its right to propose a new world.

Under equality and fairness, recirculate the world and seek the same futures.
