

For Ukraine, all decisions from the world

Kuroda International

Takeshi Kuroda

All inhumanity reality that is occurred in Ukraine. Who is trying to help them? That is all decision to Ukraine from the world.

Many peoples are dying now. And rape is occurring. The world is only watching them.

All conscience and morals, even humanity must ask for their action. That decision could make the future. So decision, by now, what can we see in the future?

How may justice be found in the world? If we may not find justice in the world, how may people ask about their future?

Justice is only all people may rely on. But out of justice, the world must make different decisions.

All curiously is from United Nations. And even the United States of America may not ask for his action.

All peoples in Ukraine make themselves with death.

Any wars must be circulated with humanity. This modernized society is different from the ancient one.

The international court must make decisions in its fairness.

These rules of reality could make a world.
