

Forecast for the future

Kuroda International

Takeshi Kuroda

The western camp covers the world as the last clash of civilizations.

All new technology of weapons and social progress with universities and the economy face the future.

The world asks himself with his king and its proper.

United nations ask for the unification of the world and build up justice.

There is a new age we make concerned with the universe and ask about our stage by it.

On the other hand, morals and socialism are facing reality. That is the only escape for people.

There are all true that all battles ask proper of the world and future. Then what we can see. Army and wealth, technology and trend that we may compare for all reality of the world.

We can see justice and morality, and how many can see the truth.

But with a complete necessity, we have to stand equally to all reality coming forecast with a world.

Equal reality is only permission we may seek its step but from the others.
