

Gathering own group under same money system and creation of economic group

Kuroda International Consulting Takeshi Kuroda

Under the same digital currency and market unification, we propose to make a group of reality in the world. On the other hand, we know there is Anglo Saxon mission. They have their king with the Juwish peoples.

We may close its market and build any industry field under our capital.

All these decisions give us all possibility to face and stand equal to the world. This reality is based on Asian unification.

We must raise our philosophy and ideas for the world and the future. That may cause a new reality in the world.

Military alliances may follow these. All these realities could give us all the possible to achieve victory.

As we need our world vision that may be from our office.

It is possible that Russia caused itself with all confusion as we may know that they have readyto-use nuclear weapons.

Politics may determine as soon as all these ideas are realized in the regions.

There is Africa and south America as all peoples may ask for their decisions. We may cause a revolution in the world.
