

World Disarmament Conference and New World Agreement

June 11, 2025

Kuroda International Consulting LLC

Kuroda Takeshi

These are proposals for new world agreements and frameworks to address the chaos of today's world and seek new world rules and realities.

These are proposals for the world to agree on disarmament and the outlawing of war, and these new agreements propose the creation of a future of shared peace and new world cooperation.

These are proposals for the world to share its new responsibilities, which resolve the chaos of today's world and agree on shared responsibilities for the new future.

These are proposals for new world agreements among all nations, and these proposals propose sharing responsibility for the new world.

These are proposals for the end of all the history of war that the world has had in the past, in new frameworks and agreements, and they are proposals for all nations to participate in the new world along with their participation in these agreements.

These agreements also propose the creation of a world based on cooperation with these new aliens in seeking new possibilities in space.

We all need to be wise and must ask for all solutions for any confusion and conflicts in the world.

Under any decisions of all our consciences, we can share all new agreements against all realities of the world.

And all these are the reality of all politics, and they have to take all responsibility for the world and the future.

We are so pleased to propose all new ideas for reconstructing the world
