

Globalization

KURODA International

Takeshi Kuroda

Unification of market gives globalization of the world. This is an occupation of profit.

New technology occupies the market. This is a reality. We are standing right in front of the steps.

The capital intensity is built in the hierarchy, and the capital is permanently sucked up.

The default is not a solution. But the market must be changed—the high trend with product control with any market.

Capitalism allows ownership of the economy as the national bank gives perfect control of the world.

Facing all reality political access to economy ask same standard and reality in own business field.

With all benefit goes to GAFAM as a top industry. They have a creation of the future.

This is why we have to stand on equal bases to the world that we can do.
