create the future

Intelligence agencies and politics make a new reality with a universe.

Kuroda International  
Takeshi Kuroda

Related to the universe, all circulation of all information to the universe as the world that makes all bases to handle new reality for all participants.

Gathering and hand all information politics may ask its action. These are with new technology base to ask political activities.

With a base to access the universe and any relationship to expand all possibilities. These are the declare for its participation in the universe above cooperations.

These are the settlement of reality and reconstruction of its nation by a new reality. New technology as it served that create a contemporary society as a nation.

In truth, this reality is as same as the USA, which means we may equally stand to the world.

Build a new environment of universal contact with development and education as bases and conference hall. Build a starship under the highest environment of the production.

And the information is any bases to make it possible with politics. This causes a new infrastructure and environment for intelligence agencies.

To reach all reality shows equally facing the world, National is completed to ask step to the future.

There must be a move to a new standard of handling reality and realizing all new realities.

This is a decision we realize all reality from all movies.
