

Liberal camp and Russian reality

Kuroda International Consulting

Takeshi Kuroda

Standing with new life in the liberal camp is dreamed of under CIA magic. These are both sides of reality, as many Russian peoples are trying to escape from war occasion.

To consider by any reality of the world liberal camp and their justice is covered with a tail of their truth.

There are both sides to any reality of the world. We may clarify and gain all understandings from those.

Even we may gain all understanding of any realities of the world. What is a challenge? To build a justice that what is.

With justice, we may find the third pole. Both of the others have themselves with a tail of crimes.

The new life of the liberal camp has progressed from the past by now. These are the dream of any enslaved person.

On this point, we find a justice of America called freedom. That covers the whole world, and the last waltz of a tyrant must be ended. But finally, we face a king. His name is satan, that we have to know.

This is a world that we spend ourselves in. On the other side, we have a Matrix in total control of the world. Then we find the lamb's wrath. That is from John's apocalypse.

What can we find in the future? I must ask for the answer.
