

Neo socialism

Kuroda International Consulting

Takeshi Kuroda

To guarantee fundamental life for all people is an idea for a new socialism. Basic income may be a new system bases on this neo-socialism.

All hierarchies of wealth should ask for a new tax system. All these are based on the equality of all reality.

Free economic and trade systems must be considered under all national security. And all these have needed a new method of society and economy.

All new technology and energy may ask for all use to construct the new social system as administrator.

As next society described by Mr. Peter Drucker comes with a new reality. All these ideas are a recreation of the social system as neo-socialism.

As remarked from our office, we have all the problems in society as poverty and moral decadence. The new society and the social system must try to guarantee life for all people under the agreement of equality.

We have to make a decision for the coming future. There are possible to make the new social design.

All new technology and system have a future. We need a base for the coming future as a tail of society by the new system.

All these required new consensuses and the presence of politics. Liberalism is moving to neo-socialism under the necessity of society.
