

New World

KURODA International Consulting

Takeshi Kuroda

We see a new money system and world opinion. We have a new world in the future.

The word government and rules must cover the new world. And we have a step into this new world. Politics must insist on their dreams.

How could we control them in industry and the realities? We have to know who has all these controls.

But in the future, we will see new technological civilization under all the use of new technologies. And progress in academics gives us the future. We may have a vision of all use of them.

All declarations of new participation in the universe may serve new realities and cooperation with the universe,

One last thing we have to share in common is we need to build our realities for the benefit of the future. That is the basis for seeking any reality in the world and the future.

There are new world systems under any purpose of theirs. But we are not trying to know the future then.

Domestic affairs may give us new possibilities even under all these circumstances. We could prepare for changes in the future.

Suppose armageddon comes with a world. We need to be wise. We need to expand and seek all our realities. That gives us a step into the existence of the future.

We are trying to create an environment in reality. All those give us many possibilities. Academic and technology This is a way of the fable of the hare and the tortoise.
