

New World

May 20<sup>th</sup>, 2024

Kuroda International Consulting

Takeshi Kuroda

A new world is defined as all new dreams of all people. That is what I am asking of all politics.

Advancements in technology and exploration of new frontiers, such as space, have opened up new possibilities for our future dreams.

All disappointment is all truth we have had in the past through the history of wars. We only find the wealth of all kings.

The revolution caused by the USA in the 20th century resulted in a new era of people, and we are now in the 21<sup>st</sup> century.

All these are the people's revolution to reach ourselves in our dream as we find from the past to the future.

Politics must pay all duties for the people. Then, we can only find the way to the future.

New education allows all children to reach themselves in the future.

If one of the people is disappointed, it is a political duty and responsibility. What do you do?

We insist that serving the fundamental life of people is the duty of politics. We are trying to recreate the world according to people's new dreams.

We may imagine that new technology gives us new possibilities. New society and life must attract all people to its future.

And politics make them possible. They have permission to make the future under their decisions.

They are the heroes who give us hope and the future.
