

New venture has own growth with new economy

KURODA International

Takeshi Kuroda

To see all new technology with new ventures create new world. These have an all use with new technologies.

To see the world there are reality to govern the futures. All these revolution creations are with industrial and technological revolution.

Capitalism have occupied the world by huge capitals. Money game have its winners. These may not immorally game but story with ant and grasshopper.

Bases all effort may not be denied but accepted by the futures.

These excitements are the huge change of the world to the futures.

Under all these circulations give an answer to the futures. USA as they make their presence may not be reached, they must own the world.

Wise man always seeks reason and truth. They have all their effort and challenge.

These new technologies have a future out of all its doubt. Related with American presence to the world as they pay all duty within 20th Century, they do have a right to decide the world.

But all these technologies are compared with philosophy. Philosophy also has himself with creation of the world.

Moving with academical handling to the world that USA makes himself with that. Due to Academic has own possibility to create and handle itself.

These are intelligence who control the world and proper the futures.

Sun and north wind that gives a proof with 20th Century that USA make himself with own presence.
