The agreement promises we find the future as we proposed all descriptions to the world from our office.

We are trying to make a new world under new cooperation of the world. All new challengers may share a new consensus with an agreement among those people.

These new agreements can lead to a new world. All these could be any basis and consensus of all world political parties. We are not trying to reject the Korean Workers' Party and the Communist Party of China.

We could make a full details of all these agreement and consensus.

As far as we can try all our efforts, we have sent all the details and descriptions under this website.

How could we calculate any reality with changes? It may be a challenging answer as we have all the world's reality.

But we have a worth to try all these challenges.

All human resources may ask for detailed visions. The foundation of a new world requires a firm self in its philosophy and reality. It is impossible to make any virtual image of yourself. Equal bases may permit equal reality. That is a law of power games,

As the world must be covered by reality in the coming future. We need to hold ourselves in our reality.

Any progress in reality is still necessary for the future. That may be the world of the future. Power must be a reality we must face in coming realities so that we have a proper choice to seek ourselves in the future.
