We propose commercializing regular cruise ship operations throughout Asia and Oceania, resort development at AIIB, hotel business, and a coffee stand adjacent to the road.

These are the business proposals under the idea, as we show all venture ideas below with this WEB site.

Suppose AIIB gives unification of the region. We have all new business opportunities. And we are gathering tourists from all over the world.

Under reconstruction under the measure of Society 5.0, Smart buildings with new technology could be provided in core capitals in the regions. And it creates a new environment in a society.

Regular cruise ship operations throughout Asia and Oceania could even give all-new attractions to any tourist.

Above is all our business proposal through this WEB site. Suppose you may find any possibility with ideas. We are asking for any contact with us.
