Who dares to take all responsibility for all children of Gaza Strip and all peoples of the middle East under any conflict of reality? But these are all the duty of any politics as they have to take full responsibility for the world.

This is all the reason we need real politicians, not seeking personal matters but responsibility for the world. They hold the power to shape the future, and this is the only way we can find the future.

Politics must serve the world and people. This only constructs all society and the lifeblood of all people. All politicians may dream all new hopes of all peoples due to politics taking all responsibility for the future.

If the world is backed to the hands of the people, they have democracy to choose their kings.

But if the world is possessed, they may choose their toys.

All is prepared as new technology and any environment to ask for all contact with the universe. Then, we only need our decisions to be all from politics.

The world with hope and wishes is only from politics and the same as the world whole of disappointment.

These are all the proof we need honest politicians.

Who gives a future to all people? I know the answer is a real politician.

These are the new cooperation of the world to share the same future. And we, KURODA International Consulting, offer new world visions when facing any world reality.

We force you to make all your decisions which only permit the future.
